ARTICLES

J.S. Weaver and J.P. Poplin A case history of the Nipterk P-32 spray ice island **1**

J.S. Weaver, K. Been, and D.W. Horsfield Creep and strength tests on warm dry spray ice **17**

Lakshmi N. Reddi and Mohan V.S. Bonala Critical shear stress and its relationship with cohesion for sand–kaolinite mixtures **26**

Guoxi Wu and W.D. Liam Finn Dynamic elastic analysis of pile foundations using finite element method in the frequency domain **34**

Guoxi Wu and W.D. Liam Finn Dynamic nonlinear analysis of pile foundations using finite element method in the time domain **44**

John J. Clague, E. Naesgaard, and Alan R. Nelson Age and significance of earthquake-induced liquefaction near Vancouver, British Columbia, Canada **53**

Greg P. Newman and G. Ward Wilson Heat and mass transfer in unsaturated soils during freezing **63**

J.A. Theriault and R.J. Mitchell Use of a modelling centrifuge for testing clay liner compatibility with permeants **71**

Julie Q. Shang Electrokinetic dewatering of clay slurries as engineered soil covers **78**

H.H. Vaziri, X. Wang, and I.D. Palmer Well-bore completion technique and geotechnical parameters influencing gas production **87**

Réjean Couture, Pierre Antoine, Jacques Locat, John Hadjigeorgiou, Stephen G. Evans et Gérard Brugnot Quatre cas d'avalanches rocheuses dans les Alpes françaises **102**

J.-M. Konrad In situ sand state from CPT: evaluation of a unified approach at two CANLEX sites **120**

M.B. de Groot and T.P. Stoutjesdijk Undrained stress path of loose sand predicted from dry tests **131**

Alex Sy and Ken K.Y. Lum Correlations of mud-injection Becker and standard penetration tests **139**

G.W. Wilson, D.G. Fredlund, and S.L. Barbour The effect of soil suction on evaporative fluxes from soil surfaces **145**

DISCUSSIONS

Ashraf M. Ghaly Soil restraint against oblique motion of pipelines in sand: Discussion **156**

Tung-Wen Hsu Soil restraint against oblique motion of pipelines in sand: Reply **158**

G. Mesri and M.A. Ajlouni Viscous behaviour of soil under oedometric conditions: Discussion **159**

Andrzej Niemunis and Stefan Krieg Viscous behaviour of soil under oedometric conditions: Reply **161**

Ashraf M. Ghaly Negative skin friction from surface settlement measurements in model group tests: Discussion **163**

Mehmet Ufuk Ergun and Devrim Sönmez Negative skin friction from surface settlement measurements in model group tests: Reply **165**

John S. Horvath Numerical study of parameters influencing the response of flexible retaining walls: Discussion **166**

Hans H. Vaziri Numerical study of parameters influencing the response of flexible retaining walls: Reply **167**

Announcement: *The Canadian Geotechnical Journal* goes on-line ii
Annonce : *La Revue canadienne de géotechnique* en direct ii
Announcement: New Editor iii
Announce : Nouveau directeur scientifique iii
